## SUMMARY

---

Highly organized and detail-oriented Web developer, equipped with proven problem-solving abilities and a strong foundation in modern web technologies. Seeks to leverage transferable skills in structured thinking and efficient execution to contribute to innovative software solutions.

## SKILLS

---

### Programming Languages:

- JavaScript (ES6+)
- HTML5
- CSS3
- SCSS

### Frameworks & Libraries:

- React.js
- Node.js
- Express.js
- React-Bootstrap

### Databases:

- MongoDB
- Mongoose

### Tools & Platforms:

- Git
- GitHub
- Vercel
- Netlify
- Heroku
- AWS Lambda
- AWS CLI
- Serverless Framework
- Postman
- VS Code

## EDUCATION

---

### FULL STACK ENGINEERING

- Career Foundry
- Berlin, Germany

### ASSOCIATE IN GRAPHIC DESIGN

- Bradford University
- Columbus, OH

### Real Estate License

- Hondros College
- Columbus, OH

## EXPERIENCE

---

### REDINGER PAINTING AND DESIGN

Owner and Founder | 2009 – Present

- Managed all aspects of business operations, including client relations, project planning, and resource allocation, demonstrating strong organizational and problem-solving skills.
- Oversaw the design and implementation of digital platforms for business operations, showcasing early interest and aptitude in web technologies.
- Cultivated effective communication channels with clients and teams to ensure project success and client satisfaction.

### PINK SPARROW

Scenic Artist | Lead Painter | 2014 – 2016

- Led fabrication and deployment of large-scale art installations, requiring meticulous planning, precise execution, and collaborative problem-solving within tight deadlines.
- Managed projects spanning over 65,000 square feet, demonstrating strong project coordination and attention to detail in complex environments.
- Collaborated with cross-disciplinary design teams to bring creative visions to reality, emphasizing teamwork and adaptable problem-solving.

## TECHNICAL PROJECTS

### myFlix - Full-Stack Movie Application

- Technologies: React.js, Node.js, Express.js, MongoDB, Mongoose, Passport.js, JWT, SCSS, Heroku, Netlify
- Developed a responsive single-page application enabling users to browse movies, view details, manage personal profiles, and curate favorite movie lists with custom comments.
- Built a secure RESTful API with Node.js/Express.js, implementing user authentication (JWT, bcryptjs) and robust data validation (express-validator).
- Designed and managed MongoDB database schemas for movies and users, including handling complex relationships and user-specific data.
- Implemented robust error handling and state management in React, ensuring a consistent user experience across the application.
- Deployed the backend API on Heroku and the frontend client on Netlify.

### Meet App - Serverless PWA

- Technologies: React.js, AWS Lambda, Serverless Framework, Google Calendar API, OAuth2, Vercel, TDD
- Currently developing a Progressive Web Application (PWA) to fetch and display upcoming events using the Google Calendar API.
- Implementing a serverless authorization server on AWS Lambda to handle OAuth2 authentication, demonstrating scalable and cost-efficient backend solutions.
- Applying Test-Driven Development (TDD) principles to ensure high-quality, maintainable code.
- Deployed the frontend application to Vercel.
